# ENTERPRISE PROFILE

General Measure established in 1993, as one of China's earliest industrial weighing company who is also a national high-tech enterprise, has over 50 people in the R&D team. For decades, we have been committed to improving the automatic process of industrial weighing and the precision of weighing control.

In 2003, we began to open the overseas market. Since 2006, General Measure dominated the high-end market and occupying more than 25% of the market in China. To expand the global business scale, we have been focusing on overseas markets since 2012. It has been seen that the average sales growth is above 30% every year.

We will continue to provide reliable industrial weighing indicators and equipment with excellent performance and weighing solutions with innovative value to our partners. Listening, Innovating, and growing together is our value, which guides us to achieve win-win cooperation by helping clients achieve their goals.

## Weasy -- Weighing Easy

**Designed for dynamic  
weighing application**

**30+years R&D experience  
in weighing control**

**ChexGo Series** checkweigher with the feature of high speed, accuracy and stable performance can work well in the harsh industrial environment. Assuring the **100%** product weighing detection under the law and regulation, it will reduce the customer complains and protect enterprise fame. Whilst replacing the manpower to lower the cost, ChexGo can help you to increase efficiency of the production line and avoid risks.

Easy operation

Accurate weighing

Abundant function

Stable and reliable

## Stable, flexible and accurate design

## Abundant function, easy integration

- Standard Modbus TCP/IP, RS485 communication
- Support connecting to labeling machine, ink-jet printer
- Support connecting to printer to print weighing data records.

## Printing Function

When communication is set as print and checkweigher is connected to the printer, the weighing data records can be printed on the interface of statistic result or by sending the print order via communication.

## USB Memory Port

- Data acquisition;
- Program update.

## Multi-type Rejector

Multi-Rejector option, flap method, swing arm, push type – flexible design.

## High efficient and better performance

### Anti-interference design

Professional circuit design, the weighing control box is passed EMC test, which can resist the power and electromagnet interference and maintain the stable operating.

### Adjustable material orientation guider

- Ensure the object stable moving;
- Decrease the vibration;
- S304 Stainless steel.

### Anti-corrosion paint protection

All control panel is protected by anti-corrosion paint, which is moisture proof, dust proof, insulation and anti-vibration.

## User-friendly design

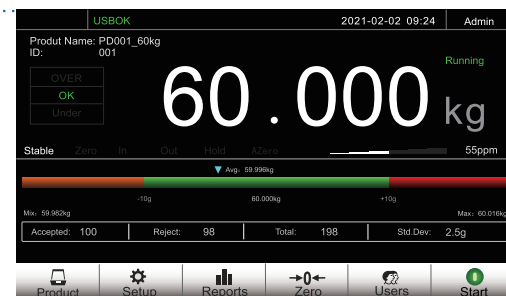

- 10-inch color user friendly touch screen and graphical design interface. Simple operation without professional training.

- A million product formula storage. Users/Admin can easy add or delete data.

- 3 levels of administration authority for well-organized management.

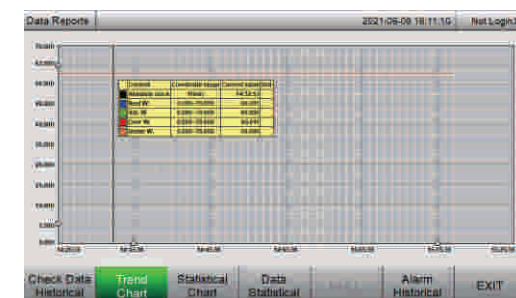

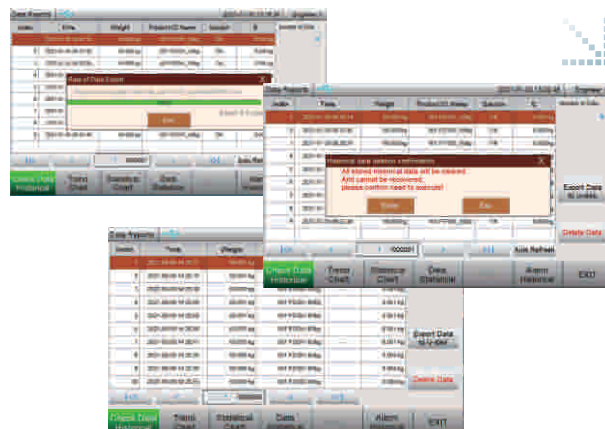

- Advanced and sophisticated software algorithm makes sure the accuracy, as well as high speed dynamic responses.

## Well-organized data management

- A million data details record including serial number, time and result for admin to check errors. Data summary report can be exported through USB and RS485.
- Weight fluctuation chart reflects the product's weight conditions from the macro perspective.

## CW-60K For Cement Industry

CW-60K special version is a dynamic checkweigher with wide weighing range and high accuracy. The special structure design and components improve the protection performance and durability, for dusty industrial field.

### Feature Highlights

- PVK belt and thick machine frame are wear-resistant;
- Omron diffuse reflection photoelectric on the top position avoiding dust;
- Automatic air blowing device to regularly clean up the dust on the photoelectric to ensure its use properly;
- Synchronous wheel quenching to enhance the durability and increase the lifespan.
